A MESSAGE FROM OWNERSHIP

Dear Members and Public Players,

As we move into August, we're certainly feeling the peak of the Florida summer. While we're all hoping for a break from the extreme heat, Mother Nature has reminded us that August in Florida can be unpredictable.

We appreciate everyone's patience as our team continues working through the challenges that come with maintaining the golf course during one of the hottest and driest stretches of the year.

On behalf of our entire staff, thank you for your continued loyalty, patience, and support as we continue investing in the future of The Golf Club at North Hampton. We are grateful for the opportunity to serve you and look forward to seeing you throughout August.

Have a wonderful month,

Bill Hogan

General Manager

The Golf Club at North Hampton

Thank You!

INVESTING IN OUR COURSE

New Irrigation System Nearly Complete

First, I'd like to personally apologize to anyone who found themselves caught in the sprinklers while playing the course over the past month. Due to the prolonged heat and lack of rainfall, frequent irrigation was essential to protect the health of our turf. Unfortunately, our previous pump system offered very little flexibility. Once activated, the irrigation system had to continue operating, and shutting it down would have risked damaging the pump.

The good news is that the solution is almost here.

We're just days away from completing the installation of our new pump station and upgraded irrigation control system. This major investment will allow us to water specific areas of the course at different times throughout the day, greatly reducing interruptions for golfers while improving overall course conditions.

Expected Completion: August 7

Maintenance Progress

Our maintenance team continues working tirelessly through the early stages of our course revitalization efforts. While this is a long-term project that will continue into the winter months, every improvement brings us one step closer to providing a golf course our members can be proud to call home.

Our commitment remains unchanged, to deliver a course that is challenging, distinctive, and maintained to the highest standard possible.

Rough Mowing Update

During July, one of our maintenance tractors experienced a transmission failure. Because of repair and transportation delays, our snake rough mower was temporarily out of service, allowing portions of the rough to grow longer than intended.

We sincerely apologize for the inconvenience this caused.

The good news is that we've secured another tractor capable of pulling the snake rough mower, allowing our maintenance team to quickly catch up and restore the course to the standards you expect.
